

### Problem

- Discharge delayed for frail people living alone
- No daily visitors to check wellbeing
- Risk of re-admission
- 50% over 80s fall every year
- 32% never carry pendant alarms

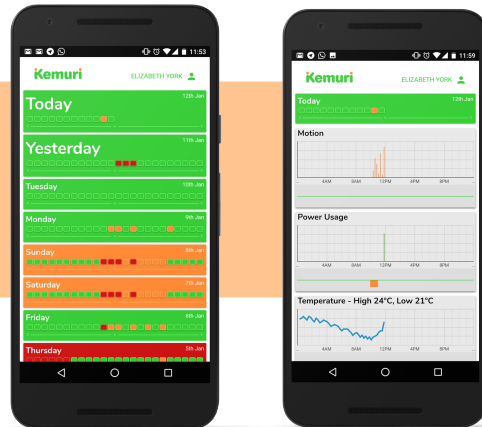

### Solution - Automatic Alerts

- Plug in portable Reablement Monitor
- Monitor motion, kettle, cooker and temperature
- Learn patterns of activity
- Check every hour (better than daily)
- Alert lack of normal kitchen activity
- No skills required

### App

- Daily Summary
- Hourly details
- Red alerts

### Benefits

**Older people:** Return to independent living  
**NHS:** Earlier discharge (£240 per DToC day). Less unattended falls, dehydration and hypothermia  
**Social care:** Convert to fixed Wellbeing Monitor  
**Families:** Peace of mind, affordable
